Career Objective

As a dedicated and results-driven Software Quality Assurance (SQA) professional, I aim to leverage my hands-on experience in manual testing, API testing, and automation using tools like JMeter and Selenium to contribute to delivering high-quality software solutions. With a strong foundation in testing methodologies and a passion for ensuring optimal product performance, I am eager to apply my skills in identifying and resolving defects, improving software functionality, and enhancing user experience. My goal is to work in an innovative environment where I can contribute to the success of the team and continue to grow my expertise in the SQA field.
